PROFESSIONAL EXPERIENCE

System Engineer - L2 | 247.ai, Bangalore
April 19, 2023 - May 01, 2026

Endpoint s Infrastructure Support

- Supported enterprise Windows 10/11 endpoints and provided L2 desktop, remote, application, hardware and access troubleshooting.
- Managed endpoint patching, software deployment, compliance monitoring and asset-related activities using ManageEngine Endpoint Central and HCL BigFix.

- Performed OS deployment, imaging and reimaging using standardized enterprise images; supported image creation, customization, lifecycle and deployment activities.
- Supported enterprise endpoint security controls including Trend Micro, BitLocker, USB control and firewall configuration.

Identity, Microsoft 365 s User Lifecycle

- Administered Active Directory user and computer accounts, OU movement, Group Policy changes/troubleshooting and domain join/disjoin activities.
- Supported Microsoft 365 user lifecycle activities, license assignment, Outlook, OneDrive and access-related troubleshooting.
- Worked with Microsoft Entra ID and Okta for identity and access support, including MFA-related troubleshooting and user access issues.

Networking s Secure Connectivity

- Troubleshoot LAN, Wi-Fi, internet and VPN connectivity issues for end users using structured TCP/IP, DNS and DHCP troubleshooting.
- Validated IP address, subnet mask, default gateway and DNS configuration and used ping, tracert, ipconfig and nslookup for diagnosis.
- Supported secure remote connectivity and VPN troubleshooting, including Cisco VPN and Palo Alto GlobalProtect environments.

Monitoring, ITSM s Escalation

- Managed incidents and service requests through Jira, maintained SLA adherence and documented troubleshooting and resolution activities.
- Monitored infrastructure/system availability using Nagios and supported proactive identification of endpoint and system performance issues.
- Coordinated escalations with network, application, security and infrastructure teams for complex or critical issues.
